

# Asian Cinema Fund (ACF)

## Accomplishments

### 1. Overview

ACF is a funding initiative to support Asian independent filmmakers in making feature-length fiction films and documentaries. By supporting Asian film projects in their script development, production, and post-production stages, ACF strives to activate independent film productions in Asia and to provide a stable production environment for talented Asian independent filmmakers.

### 2. Previous ACF Participating Projects' Current Address

Of all projects that were presented through past 19 ACFs, approximately 308 among 399 projects are now completed into feature films. Once completed, most of these films received critical acclaims worldwide from renowned international film festivals with invitations and honors.

#### ACF 2023
